

Sanlam Global High Quality Fund Named as “Top Performer”

Pieter Fourie and the Global High Quality Team have cemented their successful run with a "top performer" accolade at the prestigious Investors Choice awards 2020. Many congratulations to be bestowed upon this team which was judged under the UCITS Equity Fund – Long Term Performance category.

The annual Investors Choice Awards honour fund managers that have achieved outstanding risk adjusted absolute returns. This specific category is based purely on a risk-adjusted returns basis between January 2017 until the end of April 2020 and is granted to the select few funds that have outperformed their wider peer group in each category.

With 60 other funds in the same category, this was a considerable achievement and it builds on what has already been a successful year for the team. In February, Pieter Fourie was awarded an FE fundinfo Alpha Manager rating for a second year in a row.

Well done again to Pieter and the team for adding yet another accolade to their growing roster which currently numbers 12!
